## GLOBE Working Groups

The purpose of the Working Groups (WGs) is to enhance the role of GLOBE U.S. and Country Partners and GLOBE Scientists and Educators in shaping the future of the GLOBE Program and supporting the development and implementation of GLOBE worldwide.

In 2014, four GLOBE WGs were created composed of community members. All efforts were made to have each of the six GLOBE regions represented in the groups. If you believe there are topics that the groups should discuss and bring forward to the management of the Program, you should contact your regional representative. If your region does not have a representative at this time, feel free to contact the WG Chair.

Working Group 2014	Participant	Region	Country	Email Contact
<b>Education</b>				
	Celestin Ntivuguruzwa	Africa	Rwanda	ntivuguruzwac@yahoo.fr capd@kie.ac.rw

# GLOBE Education Working Group

## Members:

Marta Kingsland

Audra Edwards

Farid Hamdan

Henry Ortiz

Celestin Nitvuguruzwa

June Teisan

Purpose: To help ensure that GLOBE is implemented, worldwide, with sound pedagogy. The scope includes the GLOBE Teachers Guide, formal and informal educator professional development, training modules and certification process, student research competition, etc.

## We began our work in India at the 2014 GLE

- Our team decided to capitalize on the presence of so many GLOBE participants
- We interviewed students, teachers, country coordinators to ground our work

## What we heard from you:

- More opportunities to connect across countries and regions
- Ways to showcase the impact of GLOBE
- Need for resources translated into other languages

# GLOBE International Student Film Festival

## Theme:

“Extending the Impact of GLOBE”

## Timeline:

Launch early 2016

Culminate mid-2017

## Purpose:

Tell the stories of GLOBE that highlight effect beyond the classroom activities and across borders

## Other work this year:

- **Feedback**

Education working group supplied feedback on the materials from the NASA GPM Precipitation Field Campaign Mission.

Education WG reviewed rubrics and sent feedback to GOI for the International Virtual Science Fair.

Provided feedback to The Data Information Systems (DIS) Team seeking information on changes and enhancements to the overall GLOBE infrastructure over the next year.

- **Reports Outs from Individual Regions**

This week, please reach out to the Ed Working Group Members! We want to learn from you!
